The Association of Nurses in AIDS Care (ANAC)

The mission of ANAC is to foster the professional development of nurses involved in the delivery of health care to persons infected with or affected by HIV and to promote the health, welfare and rights of all HIV-infected persons.

ANAC strives to achieve this mission by:

♦ Creating an effective network among nurses in HIV/AIDS care
♦ Exchanging information, experiences and ideas at monthly meetings and conferences
♦ Providing leadership to the nursing community in matters related to HIV infection
♦ Advocating for HIV-infected persons
♦ Promoting social awareness concerning HIV/AIDS issues
♦ Maintaining a focus on prevention of further HIV infection

Cicatelli Associates Inc. is a local performance site of the New York/New Jersey AIDS Education and Training Center (NY/NJ AETC). The NY/NJ AETC is the regional center for education and training initiatives designed to meet the needs of HIV/AIDS health care providers in the area. The Center is part of a network of 11 regional and 4 national centers that conduct targeted, multi-disciplinary education and training programs for health care providers treating persons living with HIV/AIDS.

The NY/NJ AETC offers a variety of training programs, supports 15 Local Performance Sites and 4 Regional Resource Centers. These sites serve health care providers in their local communities by providing HIV education and training sessions. These sessions offer health care providers access to the most current research and treatment for HIV/AIDS and are designed to assist providers in the provision of optimum quality services and sensitive care to HIV positive persons.

Challenges of HIV/AIDS Nursing Throughout the Years

June 10, 2010

Baruch College
151 East 25th Street
New York, NY
GNY—ANAC Conference 2010

In the 29th year of the HIV/AIDS pandemic, the Greater New York Chapter of the Association of Nurses in AIDS Care (GNY-ANAC) is convening its 21st annual conference.

Our focus is on HIV/AIDS throughout the years. The purpose of our conference is to increase participants’ knowledge of how HIV/AIDS affects people throughout the age span.

As a result of attending this conference, participants will be able to:

♦ Discuss psych-social aspects of transitioning from adolescent care to adult care
♦ Identify the effects of HIV/AIDS on the kidneys and liver
♦ Identify current and upcoming treatment options
♦ Summarize the challenges of aging with HIV infection
