

2006
Annual Report

From the President and Executive Director

Dear Colleagues, Partners and Friends:

As we approach our twentieth anniversary, we are both proud to be stronger than ever before. In 1987, the Association of Nurses in AIDS Care (ANAC) was formed to provide education and support to HIV/AIDS nurses. As the numbers of those who are newly infected continues to rise, as treatments prolong the lives of those who were already infected, and as the international pandemic grows at alarming rates, ANAC's mission remains paramount yet today.

ANAC members continue to represent a unique community of committed and passionate health care providers. Certainly members feel empowered from being part of the larger group, but the individual benefits of professional growth and education keep our membership growing. Most chapters are thriving and in spite of the economic constraints that many members feel, membership numbers are at an all-time high. We are quite proud of our commitment to diversity and find that our diverse community of members provides for unique perspectives as well as opportunities for programs and publications that fit our members' needs.

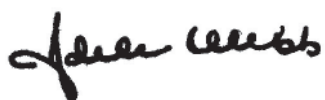

ANAC members who are experts in the field continue to develop and participate in flexible programming that meets the ever-changing needs of our membership. International opportunities have arisen through partnerships with Georgetown University, the World Health Organization, the International Association of Physicians in AIDS Care and the Health Resources and Services Administration.

Here at ANAC, we feel strongly about our responsibility to keep our members informed, to advocate for HIV/AIDS patients and to provide outreach to our global family of nurses. With our mission always paramount, we provide educational opportunities via conference programming as well as chapter meetings. Our Core Curriculum, currently undergoing its third revision, and our recently published HIV/AIDS Nursing Scope and Standards of Practice represent some of our important contributions to nurses worldwide.

Working with not only consumer, but also nursing groups, we continue to expand our national presence. Testimony this year at the New York State Assembly Committee on Health as well as presence at all President's Advisory Council on HIV/AIDS and HRSA/CDC Advisory Committee meetings has demonstrated our commitment to a national agenda. In addition, we continue to network through national conferences such as African-Americans and AIDS, Hispanics and AIDS as well as Rural Health and other appropriate venues.

ANAC remains firmly committed to its core values. We owe an enormous gratitude to our volunteers who work tirelessly to make ANAC the force it has become.

Sincerely,

.....,.....CRN, FNAP, FAAN

About ANAC

The Association of Nurses in AIDS Care (ANAC) is a non-profit specialty nursing organization that represents nurses working in any area of HIV and AIDS care. Founded in 1987, ANAC has an annual membership of more than 2,400 members, and 49 chapters throughout the U.S.

CORE PURPOSE:

To advance expertise and excellence in nurses engaged in any dimension of HIV disease and to ensure that nursing expertise is recognized and incorporated in decisions affecting the HIV community.

CORE VALUES:

Knowledge

Knowledge is the basis for all decision making in ANAC. Knowledge guides ANAC in all its work. Development and dissemination of knowledge is central to the evolution of ANAC.

Advocacy

Patient advocacy and compassionate public policy are valued by ANAC members. ANAC seeks the inclusion of the voice of nurses in promoting the health, welfare and rights of all individuals living with HIV disease.

Diversity

ANAC acknowledges the need for diversity throughout all of its work. ANAC promotes the inclusion of members with diverse backgrounds and perspectives in the leadership and work of all association activities and initiatives. Diversity of members includes all personal aspects, such as, but not limited to, race, ethnicity, gender, sexual orientation and nationality. It also includes an individual's professional role, educational preparation, populations served and geographical location.

Support

ANAC members seek support and nurturing from their colleagues. The provision of support and renewal to its members is a primary concern in ANAC's work.

Collaboration

Attainment of ANAC's goals requires collaboration within the Association, across the nursing discipline and among colleagues in other disciplines. ANAC forges strategic partnerships to move its work forward.

STRATEGIC GOALS:

Primary Resource

ANAC will be the primary resource for and provider of educational opportunities for all dimensions of HIV nursing, nationally and worldwide.

Member Value

Nurses working in any dimension of HIV disease will perceive value in ANAC membership.

Policy Influence

ANAC and its members will be recognized as an invaluable resource at the policy level for developing systems of care that promote the health, welfare and rights of all individuals living with HIV disease.

International Nursing

Domestic organizations doing work internationally will use ANAC and its members to develop HIV nursing competency and leadership in resource-challenged countries.

Organizational Effectiveness

ANAC's structure and processes will support the achievement of the envisioned future.

Primary Resource, Member Value & Organizational Effectiveness

PRIMARY RESOURCE

ANAC will be the primary resource for and provider of educational opportunities for all dimensions of HIV nursing, nationally and worldwide.

- The Scope and Standards of HIV/AIDS Nursing were approved by the ANA and are now in print.
- ANAC developed and presented a pre-conference on *The African-American Community at the Cross Roads of an Unending HIV/AIDS Pandemic: Addressing Critical Issues and Developing Effective Strategies*.
- ANAC offered nursing continuing education at the International AIDS Conference. This was the first time continuing education was offered at the International AIDS Conference.
- ANAC joined the Forum for Collaborative Research as a partner and is a member of the executive committee.
- ANAC sponsored and planned a nursing satellite program, at the International AIDS Conference, entitled *Delivering HIV/AIDS Global Nursing Excellence: Past, Present, Future*.
- ANAC sponsored a nursing track for the AIDS Alliance annual conference VOICES.

MEMBER VALUE

Nurses working in any dimension of HIV disease will perceive value in ANAC membership.

- ANAC funded a full scholarship for a minority nursing student to attend the annual conference.
- ANAC received an educational grant from Ortho Biotech to do ten chapter meetings entitled *The New Faces of HIV Related Anemia*.
- ANAC had its first Board of Directors that is 100% ACRN/AACRN.

ORGANIZATIONAL EFFECTIVENESS

ANAC's structure and processes will support the achievement of the envisioned future

- ANAC decided *+Nurse* will become part of *ANAC-dotes* starting in 2007.
- The 2003-2005 audit was completed and ANAC was found to be in compliance.
- ANAC conducted a marketing survey to help plan future initiatives

Global Nursing & Policy Influence

GLOBAL NURSING

Domestic organizations doing work internationally will use ANAC and its members to develop HIV nursing competency and leadership in resource-challenged countries.

- ANAC has become an active member of the Caribbean HIV/AIDS Regional Training network
- ANAC developed a dues structure for International members who reside in developing countries.
- ANAC is a subcontractor on a grant with Georgetown University to play a capacity building role to develop HIV nursing competency and leadership in resource challenged countries.

International AIDS Conference Panel

POLICY INFLUENCE

ANAC and its members will be recognized as an invaluable resource at the policy level for developing systems of care that promote the health, welfare and rights of all individuals living with HIV disease.

- ANAC surveyed the membership about the Ryan White CARE Act and practice issues to develop a better understanding of the views of our members.
- ANAC co-sponsored White Coat Day in Washington, DC.
- ANAC endorsed the Global Campaign for Microbicide Development
- ANAC encouraged the inclusion of a nursing presence on the Presidential Advisory Council on HIV/AIDS by submitting potential members.
- ANAC signed on to several policy-related letters including:
 - Medicaid Reconciliation Bill
 - Global Fund - to retain the Health
 - Systems Strength Proposal
 - Global Access Project

Sigma Theta Tau International ANAC Grant

Wendy Henderson, MSN, CRNP

In Memory and Gratitude

Jeanne Raisler, CNM, DrPH, was a member of the South East Michigan chapter of ANAC. On May 19, 2006, she died in Ann Arbor at the age of 59. Jeanne is survived by her husband Dr. Jonathan Cohn, an I.D. physician on the faculty of Wayne State University School of Medicine, and their adult children Josina and Josh.

Jeanne earned an MSN in Midwifery, an MPH and a DrPH in Maternal and Child Health. For the last 10 years, she was a faculty member at the University of Michigan's School of Nursing, achieving Clinical Associate Professor shortly before she died.

Jeanne's activities included educator, mentor, caregiver, writer, editor, breastfeeding researcher, advocate and much more. Jeanne was dedicated to the professional advancement of nurses. She encouraged independent nursing research, advanced education and certifications in the nursing field (such as Masters and Doctorate level degrees, Advanced Practitioner training, and ACRN and AACRN certifications). She received the Regional Award for Excellence from, and was inducted as a Fellow by, the American College of Nurse Midwives. In recent years, she made many trips to Africa, promoting the nurse's role in HIV/AIDS care.

Jeanne truly was interested in others. Shortly after meeting her, her obvious interest in one's life, aspirations, and activities manifested itself, and she looked upon everyone as a friend and colleague. She was kind, compassionate, and dedicated, to her patients, her friends, and those she worked with.

Jeanne was an active and vocal member of the ANAC Global HIV Nursing Specialty Committee for the past four years. She worked tirelessly advocating for nurses working in resource limited settings around the world raising attention and awareness to their needs. Jeanne's relentless efforts to support HIV nurses globally made an everlasting impact.

As evidence of Jeanne's commitment to advocacy for nurses living and working in resource limited settings, Jeanne bequeathed a generous contribution to ANAC, asking only that it be used to further the work that she had begun. ANAC has also received many individual donations in memory of Jeanne, a testament to the many lives that she touched.

Jeanne is profoundly missed by all.
