

We recognize that

- Nurse-led care is effective and evidence based.
- Health policies and legislation have not kept pace with the vital role of nurses.
- Ambitious targets require investments in the nursing workforce, nursing education and research.
- Nurses are under represented on decision making bodies, global HIV task forces, policy and guidelines committees.

Therefore we call for

- Advancing nurse-led care through policies and legislation that support nurses' true role in HIV prevention, care and treatment.
- Resources, budget allocation and staffing structures that reflect the central role of nursing to HIV care and achievement of 90-90-90.
- Health systems that ensure strong interprofessional collaboration.
- Equitable representation of nurses on healthcare and HIV decision making bodies.

Join us! Demand greater investments in nursing to achieve the goals of 90-90-90*

Access

Improving access to healthcare by removing political, legal and economic barriers to nurse-led care

Equity

Building sustainable solutions by requiring equitable representation of nurses on policy, guidelines and other decision making bodies

Rights

Demanding an end to HIV stigma, discrimination and unjust HIV criminalization

Nurses:

Ensure patients' rights to equitable, accessible health care

Represent 80% of the global healthcare workforce

Provide care for underserved and vulnerable populations

Provide evidence-based person-centered HIV care

Provide care along the full HIV care continuum

Are central to achievement of ambitious HIV prevention, care and treatment targets

We call for:

- Policy changes to support nurse-led care
- Greater investments in nursing
- Support for interprofessional collaboration
- Equity in decision making
